The Smart Way to Play!

Customized Partnerships

Science Playhouse is actively seeking partnerships with individuals, schools, clubs, churches, early learning facilities, gyms and organizations that would like to offer their members a unique, fun, engaging and educational alternative to traditional entertainment.

Partnering with Science Playhouse can be a great way to offer new opportunities to existing clients, help bring in new ones and increase revenue by using existing facilities and having our team manage all of the details.

How it Works

- Activities are scheduled and supervised by STEM pros
- Clear beginning and end results
- Available for regular daily, weekly and special events
- Programs are customizable to meet any requirements
- Incorporates all of the STEM-based sciences
- Our Mobile Lab and educators can come to you
- Educators can use your existing infrastructure
- We offer stand-alone programs or can add-on to yours

Why it Works

By offering dynamic and constantly-evolving programs centered on STEM and fun experiments, we help children develop a life-long interest in science, to learn about current and future technologies for a more sustainable world.

Our Vision

The founders of Science Playhouse have extensive experience in the STEM, leadership and training fields. As experienced engineers and parents, they know firsthand the glaring shortcomings in STEM education resources and curriculum in the lower grades, which led to the development of Science Playhouse.
