SCIENCE **PROGRAMMING** **ROBOTICS**
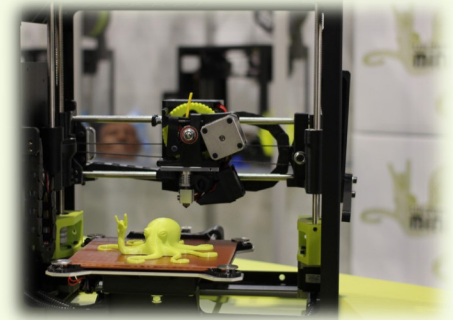

Vanguard 4-6
New lower Price!

After-school Science & Tech programs!

3d Printing & Stop-Motion Animation

Over 6 weeks we will learn the fundamentals of 3D design & printing and watch our ideas come to life as we print them out right in the class! In stop-motion video, we bring Minecraft and Lego characters to life.

Friday| Jan 27 Feb 3, 10, 24 Mar 3, 10 | 1:30 – 2:30

Mission to Mars

Take an exciting journey through space! We will transform our laboratory into a NASA Command Center. The children will conduct experiments, design and build rockets and airplanes, learn about physics, propulsion, gravity, robotics and astronomy all while having fun!

Tuesday | Jan 24,31 Feb 7, 14, 21, 28 | 3:15 – 4:15

Science Playhouse makes **STEM** exciting, interesting, and **FUN**! Your child will design, build, mix, program, experiment and feel like a scientist for a day!

Cost $75 for each course
6 x 1 hour sessions
Grades: 4-6
Multi-course & Sibling discount
